

MINUTES OF THE ENDANGERED PLANT ADVISORY COUNCIL

Date: October 20, 2016

Time: 1:00 – 5:00 P.M.

Location: Doyle Conner Building, Auditorium
1911 SW 34th Street, Gainesville Florida 32608

Council Members Present:

Mr. Richard L. Moyroud, Chair – Florida Native Plant Society
Dr. Loran C. Anderson, Vice-Chair – Florida State University Botanist
Dr. Jack Stout – Florida Committee for Rare and Endangered Plants and Animals
Dr. Suzanne Koptur – Florida International University Botanist
Mrs. Tina Tuttle – Florida Federation of Garden Clubs
Mr. Bryan K. Benson, Secretary – FDACS/Division of Plant Industry

Members Absent:

Mr. Charles D. Daniel, III – Florida Forestry Association
Mr. David M. Drylie, Jr. – Florida Nursery, Growers and Landscape Association

Others Present:

Ms. Lana Arnold – Florida Federation of Garden Clubs
Ms. Cheryl Peterson – Bok Tower Gardens
Dr. Eric S. Menges – Archbold Biological Station
Ms. Stephanie Koontz – Archbold Biological Station
Mr. Michael R. Jenkins – FDACS/Florida Forest Service
Mr. Steve W. Woodmansee – Key West Botanical Garden
Mr. Jimmy Lange – Fairchild Tropical Botanical Garden
Dr. Patti Anderson – FDACS/Division of Plant Industry

Richard Moyroud opened the meeting by welcoming the council members and other interested parties. A quorum of council members was present.

Prior to introductions, Richard made comments paying respect to Dan Ward as a founding member of the endangered plant advisory council after his passing earlier this year. He was an inspiration and will be missed by many.

Introductions were made of all present.

Richard Moyroud requested council members to review the proposed agenda. It was asked if we could add the topic of the RED Listed (most endangered) plants for discussion on day two. This topic was added to the agenda. *Suzanne Koptur made a motion to accept the agenda. The motion was seconded by Richard Moyroud. Motion passed.*

Richard Moyroud asked council members if there were any questions or suggested changes to the minutes from the 2015 EPAC meeting. It was noted that *Stylisma abdita* was misspelled on page 6 of the 2015 minutes. *Jack Stout made a motion to accept the minutes from the last meeting. The motion was seconded by Suzanne Koptur. Motion passed.*

A total of four Endangered and Threatened Native Flora Conservation Grant Applications were received this year for consideration. All four were received timely, and all met the minimum

eligibility requirements for consideration. All were assigned an application number. A copy of each application was forwarded to council members for review prior to this meeting. The four applications were evaluated and ranked by council members.

The opportunity for grant applicants & past grant recipients to present on their ongoing and future conservation activities were offered to those present.

Archbold Biological Station

Stephanie Koontz presented details outlining conservation efforts, and the past year's programs, as well as ongoing and future efforts. The council was given the opportunity to present any questions regarding the past year or the current application. A copy of the 2015-2016 Final Report was provided to EPAC members.

Bok Tower Gardens

Cheryl Peterson presented details outlining conservation efforts, and the past year's programs, as well as ongoing and future program updates. The council was given the opportunity to present any questions regarding the past year or the current application. A copy of the 2015-2016 Final Report was provided to EPAC members.

Fairchild Tropical Botanical Garden

Jimmy Lange presented details outlining conservation efforts, and the past year's programs, as well as ongoing activities and future plans. The council was given the opportunity to present any questions regarding the past year or the current application. A copy of the 2015-2016 Final Report was provided to EPAC members.

Key West Botanical Garden Society

Steve Woodmansee presented details on conservation efforts and the past year's programs, as well as ongoing and future program updates. The council was given the opportunity to present any questions regarding the past year or the current application.

Following the presentations, council members submitted grant application evaluation forms for all applications considered. Calculations were totaled and explained.

A summary of the anticipated grant allocation is provided in the table below:

	<u>Grant Amount Requested</u>	<u>Total Funds Recommended for Fiscal Year 2016-2017</u>
Archbold Biological Station	\$100,000.00	\$74,358.34

Loran Anderson made a motion to accept proposed changes for the 4-year review plant list. Suzanne Koptur seconded. Motion passed.

YouTube sensation and rare plant enthusiast, Dr. Patti Anderson provided live entertainment by singing and playing of Poison Ivy on the ukulele.

The following plant was proposed for de-listing in 2014. The committee reviewed and decided to postpone the decision last year (2015) until further information received and review during next meeting.

Echinodorus floridanus (Florida burhead) **APPROVED FOR DELISTING AS NON-NATIVE**

A = 0.5

B = 1.0

C = 0.5

D = 0.0

E = 1.0

F = -1.0

2.0 – Endangered

Suzanne Koptur made a motion to delist *Echinodorus floridanus* as non-native until further reviewed during next meeting. Loran Anderson seconded. Motion passed.

The following plants were proposed for listing this year and reviewed by the committee for confirmation next year:

Platanthera chapmanii (Chapman's fringed orchid)

A = 1.0

B = 0.5

C = 1.0

D = 1.0

E = 1.0

F = -0.5

4.0 – Endangered

A presentation was given by Houston Snead of Jacksonville Zoo and Gardens on the Chapman's fringed orchid.

Loran Anderson made a motion to accept proposal to list *Platanthera chapmanii* as endangered. Tina Tuttle seconded. Motion passed.

This year Patti Anderson received a few questions about *Agave neglecta*. The species is listed as non-native on the Atlas of Florida Plants website, and non-native plants are not intended to be listed as endangered. A publication by Alan Franck, curator at University of South Florida herbarium, indicates *Agave neglecta* is not native. Richard M. is in touch with an agave specialist in South Florida (George Rogers) and will contact him for an opinion. We can review new information at the next council meeting in 2017.

Discussion on *Eriogonum floridanum*, scrub buckwheat. This plant is federally listed as threatened and state listed as threatened instead of endangered.

Tina Tuttle made a motion to accept the proposal to list *Eriogonum floridanum* as endangered. Suzanne Koptur seconded. Motion passed.

Last year the topic of "The Most Critically Endangered Plants" was discussed and a report of those with a ranking score of less than 4.5 was provided to the committee. This year the list was discussed further. There was discussion about making book-marks and posters. The committee will receive a copy of this list again refined down to those plants with a ranking score of 3.5 or less with this year's minutes. Suzanne provided some information about the ICUN Red List and will continue to explore the option of having some Florida plant species listed as internationally imperiled, probably focusing on Florida endemic plants. Those species that are endangered in Florida, but are abundant in other states or countries, would not be good candidates.

Suzanne Koptur made a motion to authorize Tina Tuttle reach out to the Florida Wildflower Foundation on behalf of the advisory council to see how the Red List can be used for education and conservation of listed plants within Florida. Loran Anderson seconded. Motion passed.

Election of Officers

Suzanne Koptur made a motion to maintain the current officers (Mr. Richard Moyroud, Chair, and Dr. Loran Anderson, Vice Chair). Jack Stout seconded. Motion passed.

Comments from Council and Interested Parties

Michael Jenkins initiated a discussion on mowing of fire adapted species. The mowing is essential to preserve many species. A well timed mowing (with research on the timing) would be great for conservation of these plants.

Tina Tuttle and Lana Arnold representing the Florida Federation of Garden Clubs, Inc. presented the Award 6 Medal for Individual Achievement in Horticulture to Dr. Eric Menges.

Schedule Next Meeting

The next annual EPAC meeting in Gainesville will be scheduled for October 26 & 27, 2017.

A motion was made to adjourn by Loran Anderson. Motion was seconded by Richard Moyroud. Motion passed.

THE MEETING ADJOURNED

Richard Moyroud, Chair
